

Decision Matrix – This graphic organizer is useful for evaluating possible solutions to a problem. Several criteria are identified to rate the alternative solutions. Each alternative solution is evaluated against each criterion. This systematic evaluation and graphic presentation of alternative solutions can lead to easier decision making.

EXAMPLE:

Problem	Criterion A	Criterion B	Criterion C
Solution 1	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
Solution 2	<input checked="" type="checkbox"/>		<input checked="" type="checkbox"/>
Solution 3		<input checked="" type="checkbox"/>	
Solution 4	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
